

Project „Empowering vulnerable groups against misinformation and disinformation“

Erasmus+ Program, 2024 selection year, Key Action 1, sector „Adult education“ according to Grant Agreement № 2024-2-BG01-KA122-ADU-000279319

EMPOWERING VULNERABLE GROUPS AGAINST MISINFORMATION AND DISINFORMATION

CRITICAL THINKING, COMMUNICATION, SENSITIVITY

Main objective

Acquisition of competences in cascading new knowledge through sharing knowledge and experience between professionals for the prevention of disinformation; sensitivity to fake news and integration of critical thinking skills into the microculture of the learning environment; media and functional literacy, as basic skills for learning, working and interacting; promotion of intercultural understanding, self-expression and development of creativity, communication and new digital competences.

Results

1. Increasing the professional and personal competencies of the Association members in the field of effective communication and overcoming disinformation through forms of public interaction and learning through action

2. Developing practices to cultivate and develop critical thinking skills and increase the media literacy of the community

3. Enhancing the image of the Association through activities with participation in international and national forums to present the activities and results of the project

Mobilities

Mobility to acquire knowledge about managing digital resources in the direction of learning models leading to the prevention of disinformation and upgrading media literacy

Mobility to promote and develop metacognitive teaching knowledge and skills to achieve self-regulation, critical thinking and emotional intelligence
